# MUNICIPAL ADHESIVES

## MAKING CRIME AND REVOLUTION IRRESISTABLE SINCE 2021

The ambition of Municipal Adhesives is making revolution irresistible, to make crime accessible and joyous, and to take back the physical space we inhabit, a stolen inch at a time.

We sell supplies towards that end:

- High-quality screenprinted vinyl stickers priced to sell in quantity,
- Mylar stencils with evocative designs,
- and Stick Em Up Poles to get up where you never thought possible.

We've sold over 100,000 stickers of 75+ mostly original designs and given away more than 30,000 more: shipped to every state in the United States and many countries abroad.

Get stickers for yourself or your community. Stock our stickers at your community center or bookstore. Invite us to vend at events.

Transform the flat surfaces of your community! *Bring the walls to life!*  
**Together, they can't stop us!**

## EGGSHELL STICKERS

Items marked with this icon are eggshell stickers: thinner, more brittle, more difficult to handle. They are also incredibly difficult to remove once applied: advantageous to the vandal. They are also better able to stick to porous and uneven surfaces not usually welcoming for stickers: wood, concrete, stone, even asphalt. See this video from the sticker printer's website:

1 for \$2.50 || 5 for \$3.50 || 10 for \$5 || 25 for \$10.50

4.25"x1.37": *The USA has an appallingly high perinatal mortality rate (especially for black and indigenous parents), dismal accountability for sexual abuse and little to no social safety net. Taking away birth control of any variety including abortion is a threat of trauma, poverty, or death to those with no access to the capital that will float politicians and executives and their sexual partners out of the forced birth medical/legal regime that the rest of us suffer.*

*We look to a world of reproductive justice: where every parent is an enthusiastic participant in the life of their child, and desire is liberated from want and restraint, whether it comes from state, church or capital. This necessitates abortion available on demand, and medical providers beholden only to their own patients and practice.*

*The stickers feature a sims uterine suction curette, the device used in the greatest majority of surgical abortions in the US, and a set of five pills: one mifepristone and 4 misoprostol, the medications and typical dosage used in the greatest majority of medical abortions worldwide.*

## SLAP PACKS

*Dig our designs but can't decide what you want? Need a pack quick to cover some fascist garbage in your neighborhood, and don't really care with what? We got you.*

*Each ounce is approximately 13 stickers, so 3oz will get you ~40 stickers. Each slap pack will contain a variety of designs, colors, materials (eggshell, vinyl, never paper), and likely a variety of print methods (process, silkscreen).*

## STICK-EM-UP POLES \$11

*What the fuck is a Stick Em Up Pole?*

*An invaluable tool for the prolific stickerererer: Not only does it allow access to heights (or breadths!) you'd have to climb to slap, the squeegee on the end clears water and rubs grime off smooth surfaces.*

*Surfaces, weather, or heights that would prevent the less-equipped vandal are no longer an impediment! They fit in your pocket yet extend your reach over 3 feet.*
